

# Love Love (feat. J Boog)

## Lion Fiyah

On my knees to the Father I pray  
Bless us with safeguard demonstrate  
We digging deep for a better way  
Living in this world where it's easy to lead you astray

We need to love love  
We need to love, ay  
Jah Jah take way the obstacles  
We need to love love  
We need to love, ay  
Jah love make everything possible

Jah Jah give us sense to make the most from the least  
And Jah Jah give us strength so we can trample the beast  
And Jah Jah give us wisdom people make the war cease  
And stop all the bloodshed and bring about peace  
Mama Earth never raised no fool  
And we all know the golden rule  
Do good to others and take care of each other  
And praise Jah with all your due  
Above all things Jah love is the greatest  
Above the richest in the world I will braid it  
For all the glory and fame I wouldn't trade it  
Oh yes, I love has not name on it, shout it out

On my knees to the Father I pray  
Bless us with safeguard demonstrate  
We digging deep for a better way  
Living in this world where it's easy to lead you astray

We need to love love  
We need to love, ay  
Jah Jah take way the obstacles  
We need to love love  
We need to love, ay  
Jah love make everything possible

Oh yes, Jah love is the portion of my wages  
The architect with the blueprint of the some of our latest  
The author of the ancient mystery of sages

The glory of the king give praises  
So take the beam on top of my eye  
I can see clearly with my best behind  
Free as a bird come on let's fly  
I see your brighter day  
That's why we sing-a  
All I now is Jah bless me  
He fool me of a current  
With no work I'ma teste  
Wipe out the obstacles that come up to stop me  
Champion of justice, judge that defend me, Fiyah

On my knees to the Father I pray  
Bless us with safeguard demonstrate  
We digging deep for a better way  
Living in this world where it's easy to lead you astray

We need to love love  
We need to love, ay  
Jah Jah take way the obstacles  
We need to love love  
We need to love, ay  
Jah love make everything possible

On my knees to the Father I pray  
Bless us with safeguard demonstrate  
We digging deep for a better way  
Living in this world where it's easy to lead you astray

We need to love love  
We need to love, ay  
Jah Jah take way the obstacles  
We need to love love  
We need to love, ay  
Jah love make everything possible
