

# Only Want You

**Brett Dennen**

Listen to the river  
Does it make you wonder  
How anything could ever stand still? First lightning then thunder, thunder.  
A kiss in the rain, love  
Feel the thrill. (chorus) I only want you  
I only want you  
I want what we had. I only want you  
I only want you  
It's as simple as that. Run to the forest  
You'll find some shelter. Remember how we fell in love so sweet? You said watch your step  
Walk softer softer  
'Cause dreams are growing below our feet. (chorus) I only want you  
I only want you  
I want what we had. I only want you  
I only want you  
Can we get it back? I only want you  
I only want you  
I want what we had. I only want you  
I only want you  
It's as simple as that. Yours is the best love,  
It's the best love.  
So pure and so true. Our love will lift us  
Our love will lift us.  
Only love, my darlin'.  
Only you. When I do not feel inspired  
I can only speak my heart. I'm sitting in the middle of a fire, fire  
And I can't even catch a spark. (chorus) I only want you  
I only want you  
I want what we had. I only want you  
I only want you  
Can we get it back? I only want you  
I only want you  
I want what we had. I only want you  
I only want you  
It's as simple as that.
