

Quietly

Guano Apes

Quietly explodes your love
Your insecurity is so soft to me
I can't let you bleeding
We are falling into us
I see you dyin' in my eyes Just let it all go
You left
So am i We go insane Just let it all go
You left
So am i You leave on inside Quietly we arrive
Your insecurity is so soft to you
You can't let me bleeding
We are falling into deep
I'm dying in your open mouth Just let it all go
You left
So am i We go insane Just let it all go
You left
So am i You leave on
You leave on inside So you care
Leave them on
So you care
Leave them on with a shine
And you can't go on with your life
It's a fact we can't deny If you have to go, please go quiet
Please go quietly Just let it all go
You left
So am i We go insane Just let it all go
You left
So am i You leave on
You leave on inside Let it all go
