

Never Say Goodbye

Sono Vero

Making out getting sand between the sheets
Pull you in cause I love to feel you breathe
I've really missed your touch, yeah
I think I've waited long enough now
Late nights with tequila on the beach
One look and I know your all I need
I'm wishing time would slow down
I don't want to see you go now Would you say
Nothing last forever
Say you'll stay
Stay a while
You seem to get a little wild and
I want to see you smile
When we get together girl.
I never, never, never want to say goodbye,
Getting lost in your perfect... eyes
I seem to find a way
When we get together girl.
I never, never, never want to say goodbye,(Oh's)
(Never wanna say goodbye)
First kiss we were up against the car
Looking up cause you love to count the stars.
There's no one that i'd rather be with.
Call me a heartbreaker, its true.
I never dreamed of hurting you.
Wanna be there where you are
And never go away.Say you will stay with me forever.
Love you still.
Stay awhile.
You seem to get a little wild and
I want to see you smile
When we get together girl.
I never, never, never want to say goodbye,
Getting lost in your perfect eyes
I seem to find a way.
When we get together girl.
I never, never, never want to say good,
(Oh's) Never, never, never wanna say goodbye
