

# Fun While It Lasted

**Billy Joe Shaver**

I met her one evenin' in a bar room downtown  
She was the picture of truth  
Her shoulders were sagged and her head was bowed down  
Like me she was livin' the blues When the music had ended and the crowd dwindled down  
And we were the last lonely two  
We left with each other when nothin' was left  
And nothin' left better to do And it was fun while it lasted but it didn't last long  
Before we knew it the thrill was all gone  
And we both wound up singin' the same lonesome song  
It was fun while it lasted, but it didn't last long I had a woman and she had a man  
Before we both lost it all  
When I thought of her that's when she thought of him  
And I never could stand that thought
