On My Way

Eli Young Band

Red light traffic standing still
Keeping me from you
Tough days always in this town
But this one will soon be through
Just right around the bend
On a porch step by the drive
There's an angel out there waiting
To bring me back to life
She always saves me from all of my crazy
Like a heads up penny lying on the ground
She'll be shining
Yeah that dare me to laugh(?) little look
She gets me believing
There ain't a worry in my world that won't start fading
When she's next to me
So I need to be on my way
Lived the dream and finally I'm moving again
Faster than this bag of old sugar, traveling
Up ahead I see her, hand waiving in the air
Faded cut back denim and tangled auburn hair

She opens up the door, all I want and more
Like a heads up penny lying on the ground
She'll be shining
Yeah that dare me to laugh(?) little look
She gets me believing
There ain't a worry in my world that won't start fading
When she's next to me, where I need to be
On my way
She can't sit still for the thrill of the night that's coming on
It's only a matter of time 'til my troubles are gone yeah
Like a heads up penny lying on the ground
She'll be shining
Yeah that dare me to laugh (?) little look
She gets me believing
There ain't a worry in my world that won't start fading
When she's next to me, oh cant you see?
On my way, oh I'm on my way
To my heads up penny

To my heads up penny
