

# Pressure

## Sacred Reich

Full of potential yet nothing there filled with infinite ideas why so hard  
don't know what's the problem seems like pulling teeth never had this  
happen I must overcome

Pressure pressure pressure in my head pressure pressure pressure in my  
head

Tap into the bank of knowledge reaching for the source look around in my  
mind for some meaning don't know what I might find hope I find it soon  
taking just too much time sitting in this room

Pressure pressure pressure in my head pressure pressure pressure in my  
head

Don't like what I'm seeing lack of drive and thought don't know how to fix  
it time to start days of deep reflection nights of sweat and work have to  
beat this this is my reward

Look around in my mind hope to find any ideas I like and can write have to  
have some meaning not just some words put some music to it get to work

Pressure pressure pressure in my head pressure pressure pressure in my  
head
