

Union

Rebecca & Fiona

Restless friending over streets, controlled by blank minds
Burning everything we built, afraid to shout out
Big boys making us believe, for save a dream life
Leaping weak in friends in lead, to raise a union

We used to own this town, share ur hearts for better
When they hear us stun, we take it back together

We donâ€™t wanna fall
Theyâ€™re taking down us all
Dancing in the sun
The sound is like a shotgun (x2)

Restless friending over streets, controlled by blank minds
Burning everything we built, afraid to shout out
Big boys making us believe, for save a dream life
Leaping weak in friends in lead, to raise a union

We used to own this town, share your hearts for better
When they hear us stun, we take it back together

We donâ€™t wanna fall
Theyâ€™re taking down us all
Dancing in the sun
The sound is like a shotgun (x2)
