

# Big John Shaft

## Belle & Sebastian

I'll make another movie  
The same one as the year before  
I'll take a tired idea  
And put it in the hands of Hollywood  
I need to talk to someone  
I've been living someone else's life  
I don't get no mail at my house anymore  
My manager's my bride  
I'm leaving on a jet plane  
I'll see my baby soon enough  
I won't take her to the movie  
I'm worried that the lines become all blurred

I couldn't help but feeling something  
When the boss told us to act this way  
I'm ashamed of my profession  
I would do the same again  
I'll make another movie  
Same one as the year before  
I'm looking for a story  
Something ludicrous to rise up from the street  
I won't play another heavyweight  
I won't play another big John Shaft  
Put me in a frock and leave me to recite  
Maybe my career will die
