

Killing Me

Lloyd

Am I being pulled from across the room
I can feel her watchin' me
But I'm playing cool, me and my dudes
Tryin' not to spill my drink And she's showing me her tongue ring
Dying to get my attention
Just then I hear my phone ring
It's my ***, he's callin' a mission She's a devil in a dress, dressed to impress
The best of the best hustlas
Ain't no telling how many she corrupts
Run up, try your luck, she might steal ya heart from ya She's a devil in a dress, dressed to impress
The best of the best hustlas
Ain't no telling how many she corrupts
Run up, try your luck, she might steal ya heart from ya Ooh, she won't let me get away
I think I hear her body callin' me
She's about to make that move
What am I to do, she's killing me She just wanna break me down
Work that round, my eyes can see
She's about to make that move
What am I to do, she's killing me She's killing me, she's killing me
She's killing me, she's killing me
She's killing me, she's killing me
And she's killing me Damn, what I'm supposed to do
She got me cornered in the club
And all the homies watching me
She got me nervous now, I can't look her in the face
Them pretty eyes see right through me Ooh, I know she ain't no good for me
And this ain't where I wanna be
I think I like it
Ooh, and I don't wanna like it, oh She's a devil in a dress, dressed to impress
The best of the best hustlas
Ain't no tellin' how many she corrupts
Run up, try your luck, she might steal ya heart from ya She's a devil in a dress, dressed to impress
The best of the best hustlas
Ain't no tellin' how many she corrupts
Run up, try your luck, she might steal ya heart from ya Ooh, she won't let me get away
I think I hear her body callin' me
She's about to make that move
What am I to do, she's killing me She just wanna break me down
Work that round, my eyes can see

She's about to make that move
What am I to do, she's killing me, oh yeahShe's killing me, ooh, she's killing me, oh
She's killing me, yeah, she's killing me, yes, you are
She's killing me, ooh yeah, she's killing me
She's killing me, oh, ya killing me babyShe's a devil in a dress, dressed to impress
The best of the best hustlas
Ain't no tellin' how many she corrupts
Run up, try your luck, she might steal ya heart from yaShe's a devil in a dress, dressed to impress
The best of the best hustlas
Ain't no tellin' how many she corrupts
Run up, try your luck, she might steal ya heart from yaOoh, she won't let me get away
I think I hear her body callin' me
She's about to make that move
What am I to do, she's killing meShe just wanna break me down
Work that round, my eyes can see
She's about to make that move
What am I to do, she's killing meShe's killing me, yes you are, she's killing me, ooh yeah
