

Baby Is a Butterfly

Joan Osborne

There's a mansion on the moon
Honey we will be there soon
Into ships our dreams are tossed
Hold my hand and let's get lostBaby Is a Butterfly
Silken wings and eagle eye
Watch her running up the sky
Oh Babyis a butterflyRivers never stop to rest
Sparrows know that they are blessed
(going forth into the night
Beckoned by the city lights)Baby Is a Butterfly
See her swimming in the sky
Hurts me so to hear her cry
Oh babyis a butterflyStaying all day at the fair
Evening primrose in her hair
Everything's a miracle
Now my cup is always fullBaby Is a Butterfly
Silken skin and eagle eye
We'll be angels by and by
Babyis a butterflyStars are hiding in the clouds
Branches gonna catch them now
