

Drink It Up

Kenny Chesney

Drink it up, don't waste a drop
Squeeze every second out of that old clock
Kick it back, man, enjoy the ride
Keep livin' everyday like it's Saturday night 'Cause you only get so much lighting in the bottle
Only so many times you get to feel like this
Light it up, burn it out, that's what life's all about
Man you can't just take a lil sip, fill your cup, drink it up
Ah drink it up Let it roll let the big wheels turn
Sling a lil gravel goin' through those curves
You and me, we gotta soak it in
Keep it plankin' like this party's gonna never end 'Cause you only get so much lighting in the bottle
Only so many times you get to feel like this
Light it up, burn it out, that's what life's all about
And you can't just take a lil sip, fill your cup, drink it up
Ah drink it up Get it while you can, take it to the limit
Live out every single minute while you're in it
'Cause you only get so much lighting in the bottle
Only so many times you get to feel like this
Light it up, burn it out, that's what life's all about
Man you can't just take a lil sip, fill your cup 'Cause you only get so much lighting in the bottle
Only so many times you get to feel like this
Light it up, burn it out, that's what life's all about
And you can't just take a lil sip, fill yo cup, drink it up
Ah drink it up
Come on and drink it up
