

All Fall Down

The Izzys

And if I were the world
I would stop turning
And if I were the trees
I would stop burning
And if I were the sky
I would fall down, down, down
Because what goes up must come-
We all fall down
Down, down, down,
down, down, down
So many unhappy faces
In so many unhappy places

And if I were the king would anything change?
Because after time,
Only the faces and the names are rearranged
And if I were the world
I would stop turning
And if I were the trees
I would stop burning
And if I were the sky
I would fall down, down, down
Because what goes up must come-
We all fall down
And if I were the world
I would stop turnin
