

Voices In My Head

Stephen Lynch

Advisory - the following lyrics contain explicit language:

Voices in My HeadPrelogue:

You know, when you're up here and you're playing and having a good time and
looking down on you and all of your smiling faces, you try to do a good show,
but sometimes there's some shit going on inside that you guys are not privy to,
and that's what this song is about. It's called Voices in My

Head-----Thank you all for coming to my
show

You've been great, but now i have to go.

Everyone had a super time i hope

Some songs tend to push the envelopeThese are things that i have said,
but there are voices in my head,
and if you could here them,

this is what they'd say:Thank you all for coming to my show

- Oh it hurts you bastard didn't laugh at my new nazi song and

You've been great, but now i have to go.

- Go and ask that girl in the front to come backstage and show her thong and

Everyone had a super time i hope

- I hope the guy who heckled me gets hit by a big bus, that fucker

Some songs tend to push the envelope

- Open up your eyes, your wife and girlfriend both showed up you suckerThere are voices in my head

- Ooooooh, You're such a hack

Saying things that shouldn't be said

- You need Prozac

I just hope that they will

- No we won't

Go awayBut wait there's more

Thank you all for coming to my show

- I have to take a piss

- God I hope there's cocain left backstage

You've been great, but now i have to go.

- Why did I sign up for this?

- God I hope there's cocain left backstage

Everyone had a super time i hope
- Leave this song on the shelf
- I really really hope there's cocaine left backstage
Some songs tend to push the envelope
- I should just kill myself
- He is right you should kill yourself There are voices in my head
- Ooooooh, You're such a mess
Saying things that shouldn't be said
- You're talentless.
I just hope that they will
- No we won't
Go away
No they won't go away
- Never go away
- Never go away
They're here to stay.
- We're here to stay
- We're here to stay
They say I'm gay
- You're gay
- You're gay
Absolutely not I'm not gay
I say No Way
- You're gay
You're gay
- You're gay
Ok I'm Gay
- Bi-curious
