

Hole

Michael Flynn

I have to leave this place
But I can't move
And I can't walk
I want to speak
But I can't talk
I want to say I love you
Those words I didn't say
And tell you that I care
As I think of you
But you pushed me away
This new control, you couldn't change me
I jumped down the hole, I'm never coming back baby
All I'm saying, it's better to have never loved at all
Don't wait
soon enough you'll lose every single thing you loved
Just when you're close enough and then it breaks
You've found equations, you know what it takes
You know that you're not dead and paranoid
