

Happiness

Eleventyseven

Happiness is overrated
It always lets me down
It's artificially inflated
She's a flirt
And she burns me every time Happiness is just a dream
And nothing's what it seems Happiness broke my heart
But you caught all the pieces
I thought that I found it all
But your love is so much deeper
Even though my life's a mess
I love you more than happiness Before I knew it it was over
Without a kiss goodbye
No more candy hearts and roses I've got to get this off my chest
I'm done with happiness
Happiness broke my heart
But you caught all the pieces
I thought that I found it all
But your love is so much deeper
Even though my life's a mess
I love you more than happiness Woah..
oh..oh..oh x3 Why am I so obsessed?
I'm totally unimpressed
This happiness is getting me down
Happiness broke my heart
But you caught all the pieces
I thought that I found it all
But your love is so much deeper
Even though my life's a mess
I love you more than happiness Happiness...
