Down the Highway

Son Volt

Every road has a story to tell
Of dreams that have soared
of dreams that fellFinding that level that says out of control
Prospecting riches, that reside in the soulThrow this love down the highway
See where it turns
Life is a shell game, lessons lost, lessons learnedThere will never be a time
Like the time that is now
To reach for the promise
Of melody on the bow
Break up the silence
Make it clear make it last
Forgiveness given, break away from the pastPut this love down the highway
See where it turns
Life is a shell game, lessons lost, lessons learned
There's a world of wisdom
Inside a fiddle tune
Throw this love down the highway
See where it takes youWhile mortar bricks may crumble
Time moves along, with a dance step stumble
Really no choice, but escape from the past
Break up the silence
May it clear, make it lastPut this love down the highway
See where it turns
Life is a shell game, lessons lost, lessons learned
There's a world of wisdom
Inside a fiddle tune
Throw this love down the highway
See where it takes youThere's a world of wisdom
Inside a fiddle tune
Throw this love down the highway
See where it takes youThrow this love down the highway
See where it takes you
