It Could Be Easy

House of Fools

I've been dreaming aloud
If you need me
I'll be right here for now
When there's a problem
Please ask
There's no point in conversations
Being such a foreign taskLet's not fight
It could be easy if we try
Shooting for feelings that are too hard to describe
So if you're following me
You're following me downI can't get no relief no
To be searching for the better
The better part of me
I always feel so wrong
For evertime I mess up
I write another song
I've always been wrongSo i've been singing all along
Shooting for feelings that are too hard to describe
So if you're following me
You're following me down
You're following me down
