

# It Could Be Easy

## House of Fools

I've been dreaming aloud  
If you need me  
I'll be right here for now  
When there's a problem  
Please ask  
There's no point in conversations  
Being such a foreign taskLet's not fight  
It could be easy if we try  
Shooting for feelings that are too hard to describe  
So if you're following me  
You're following me downI can't get no relief no  
To be searching for the better  
The better part of me  
I always feel so wrong  
For evertime I mess up  
I write another song  
I've always been wrongSo i've been singing all along  
Shooting for feelings that are too hard to describe  
So if you're following me  
You're following me down  
You're following me down
