

Wake Up America

Cyrus, Miley

Oh, can we take care of her?
Oh, maybe you can spare her
Several moments of your consideration
Leading up to the final destination
Oh, the earth is calling out
I wanna learn what it's all about
But everything I read
'Global warming', 'going green'
I don't know what all this means
But it seems to be saying
Wake up, America
We're all in this together
It's our home so let's take care of it
You know that you want to
You know that you got to
Wake up, America
Tomorrow becomes a new day
And everything you do matters
Yeah, everything you do matters in some way
Stand up, I'll try if you will
Wake up, it's not a fire drill
All she needs is a little attention
Can you give her just a little attention?
Oh, it's easy to walk away
But it's getting harder day by day
Everything I read
'Global warming', 'going green'
I don't know what all this means

But it seems to be saying
C'mon, wake up, America
We're all in this together
It's our home so let's take care of it
You know that you want to
You know that you got to
Wake up, America
Tomorrow becomes a new day
And everything you do matters
Yeah, everything you do matters in some way

I know that you don't wanna hear it
Especially coming from someone so young
But in the backseat, yeah
They wanna hear it
So come on, turn it up
Come on, turn it up
So come on, turn it up
Wake up, America
We're all in this together
It's our home so let's take care of it
You know that you want to
You know that you got to
Wake up, America
Tomorrow becomes a new day
And everything you do matters
Yeah, everything you do matters in some way
