

High On the Happy Side

Wet Wet Wet

And everything seemed the same tonight
And then the moon went out
In the middle of the night
And the rain goin' up again
Let it all come down, let it all come down You wanna hear how the story goes
You wanna see but you're never told
Where lies this fools gold Every time that you say goodbye
I sit and wonder why
Why all this happiness
Now there's nothing goin' on Every time that you say goodbye
I'll sit and I'll get high
High on the happy side again and again
And again and again and again I hear the songs on the radio
But they don't turn me on
I hear the world's been shakin' up again
And the deals been done and the storm it has begun You wanna hear how the story goes
You wanna see but you're never told
Where lies this fools gold And every time that you say goodbye
I sit and wonder why
Why all this happiness
Now there's nothing goin' on And every time that you say goodbye
I'll sit and I'll get high
High on the happy side again You say goodbye
I sit and wonder why
Why all this happiness
And now there's nothing goin' on And every time that you say goodbye
I'll sit and I'll get high
High on the happy side again and again
And again and again and again Why all this happiness
And now there's nothing goin' on Every time that you, you say goodbye
Getting high on the happiness
I'm getting high on this happiness
High on this happiness High on this happiness
And now there's nothing goin' on And every time that you, every time that you
Every time that you say goodbye
