I Hope You're Driving

River Town Saints

I hope you're cussing, punching that steering wheel, realizing how you really feel, second guessing, every single white dotted line that's flying by underneath your head lights and Baby tonight, I hope you're driving (driving)
Yourself crazy, pulling that Rearview down at the backseat seeing old memories, thinking maybe, you should flip a u turn come back baby, I'll be waiting, cause if you ain't here yet, I hope you're on your way, yeah
I hope You're driving....
I hope you're driving....

I hope you're happy, found a little piece of mind, moving on with your life, like you told me, you wanted, well I hope you went and got it, hell who am I foolin', If I'm being honest, yeah I hope you're driving ...
Yourself crazy, pulling that Rearview down at the backseat seeing old memories, thinking maybe, you should flip a u turn come back baby, I'll be waiting, cause if you ain't here yet, I hope your on your way, yeah, I hope you're driving, all through the night, you ain't gonna stop, till you take back that goodbye yeah, I hope you're driving, I hope you're driving
Yeah I hope you're driving (driving)
Yourself crazy, pulling that Rearview down at the backseat seeing old memories, thinking maybe, you should flip a u turn come back baby, I'll be waiting, cause if you ain't here yet, I hope your on your way, yeah
I hope you're driving ...
I hope you're driving... yeah I hope you're driving [long]
