

Shadows of the Night

Dead Moon

Downtown to the courthouse
For some pass-the-buck justice
It's a knock-down, drag 'em out, beat 'em up, mace the crowd
 Strip search, busted
 Can't control the fire
 Coming through barbed wire
It's a junkyard, live hard, bear the scars of broke and charred
 Sellers and buyers
 So when all is said and done
 Watch out, 'cause here they come
 Shadows of the nightIt's the last of the old ways
 It's the wave of the new age
Computerized, digitized, money markets, mechanized
 Internet highway
 Infected by the needy
 Neglected by the greedy
 Chaos, blood loss, nickel bagging debutants
 Looking for a freebieWe got radio silence
 Another act of violence
 Backstage, spray paint, security in rollerskates
 Beating on a new dance
 Going down on a choker
 Stun gun smoker
Open range, who's game, shoot until the scream of pain
 Never getting older
