

A Mother Has a Hard Road

Killdozer

Look into my eyes, tell me what do you see?
You'll see a mother who has suffered great sorrow
A mother has a hard road to follow
Yes, a mother has a hard pill to swallow with little saints others are blessed
but the good lord put me to the test
with a son who sleeps his life away
and a daughter with morals in decay
What is a mother to do,
when she's cursed with children like you?
A mother has a hard road to follow
Yes, a mother has a hard pill to swallow
