

# Loving Me Back to Life

[Geri Halliwell](#)

I've been looking for love in all the wrong places  
Different names, familiar faces  
I've watched the moon go through its phases  
Now I love myself enough to say It's time to let you go  
Gotta let my feelings show  
Don't wanna say goodbye  
I wanna thank you for loving me back to life Do you keep yourself warm with the bridges you're burning  
Another day gone but what are we learning  
Thank God for the young, they keep the world turning  
To win the war is not to play the game It's time to let you go  
Gotta let my feelings show  
Don't wanna say goodbye  
I wanna thank you for loving me back to life Love to live, live to love, let it go  
Learn to live, just forgive and we can grow  
Love to live, live to love, let it show  
Love to live, just forgive and now I know There's no gold beyond the rainbow  
But everybody needs to dream It's time to let you go  
Gonna let my feelings show  
Don't wanna say goodbye  
I wanna thank you It's time to let you go  
Gonna let my feelings show  
Don't wanna say goodbye  
I wanna thank you for loving me back to life For loving me back to life
