Soul Deep

Tahiti 80

There's something that I wanna keep
Inside my heart where feelings are soul deep
Things could get worse day after day
I know my dreams would never fade awayI know you've got soul but you're wasting your time
Looking for a goal you don't need to find
So please change your style and start living for a while
Everything is already there in your heart, yeah yeah yeahIt's there when you are asleep
When your heart beats you can hear it soul deep
Things could get worse day after day
I know my dreams would never fade awayI know you've got soul but you're wasting your time
Looking for a goal you don't need to find
So please change your style and start thinking for a while
Everything is already there in your heart, yeahI only want you to try something new
I only want you to believe in you
That's what you have to do
Trust me, it's true
That's what you have to do
That's what you have to doThere's something that I wanna keep, yeah yeah yeah yeah
Inside my heart where feelings are soul deepI know you've got soul but you're wasting your time
I know you've got soul but you're wasting your time
Soul deep, something I wanna keep
Soul deep, something I wanna keep
Soul deep, soul deep
