Caribou

If you want to know a secret
What are you waiting for?
If you want to ask me something
I can tell you so much moreIf you want to cause me trouble
It's not up to me
I know that there's something missing
Does it mean you're leaving me?How can we fix our love?
Now that we know it's broken
I can only take so much
Your kiss and your touch are both like a poisonWhere did it all go wrong?
Why is this what we've chosen?
I can only do so much to fix
All the things that went unspoken
