

Firefly

Breaking Benjamin

You my friend
You're a lot like them
But I cut your line
And you know I did Now I'm lost in you
Like I always do
And I die to win
'Cause I'm born to lose Firefly
Could you shine your light?
Now I know your ways
'Cause they're just like mine
Now I'm justified
As I fall in line
An' it's hard to try
When you're open wide Take my hand
We'll be off and then
We'll come back again
To a different land Now I like this way
You can go away
If you guess the name
You cannot replace Firefly
Could you shine your light?
Now I know your ways
'Cause they're just like mine
Now I'm justified
As I fall in line
And it's hard to try
When you're open wide Bring me your enemies
Lay them before me
And walk away
Walk away
Walk away Firefly
Could you shine your light?
Now I know your ways
'Cause they're just like mine
Now I'm justified
As I fall in line
And it's hard to try
When you're open wide Fuck you firefly
Have you lost your light?

Now I hate your ways
'Cause they're just like mine
So you've lost my friend
Such a sorry end
And now I don't know why?
So I choke and smile
Smile
