Let's Roll

Maurice Ulmer

You say you can love me better
If only I just let you, show me
Things I never seen before
You say you can fill my cup
Screaming with just one touch
Your name, all over this room, baby oh
Let's roll, I'll give you a chance to give it to me
Ten inches deep, deep inside of me, make my body over flow
Let's roll, you promised to do what you said
The way I'm coming in my bed, slowly, harder, faster
I'm gonna slip my panties off
I hope your man enough to get me off
Victoria has no secrets tonight
Just you and me sexing all night
(I've never seen something so beautiful baby)
Give it to me, like you promised
(Don't hold back at all)
Let's roll, I'll give you a chance to give it to me
Ten inches deep, deep inside of me, make my body over flow
Let's roll, you promised to do what you said
The way I'm coming in my bed, slowly, harder, faster
No more talking shit, make me slap my hips, man up
Back to front, show me what's up, you know what I want, yeah
You like to cuddle up, now give me some, on my knees
In between my cream, ten inches deep, yeah
Let's roll, I'll give you a chance to give it to me
Ten inches deep, deep inside of me, make my body over flow
Let's roll, you promised to do what you said
The way I'm coming in my bed, slowly, harder, faster
