Bloody Chunks

Cannibal Corpse

Walking down the street, the smell of death in the air
What a rotting stench
My imagination runs wild at what it could be
Open up the can to discover a dead bodyOr what was left of one, pieces in a bag
Blood is everywhere what a retched sight
Cut up really small by a razor sharp knife
Lying in the garbage no one else knowsWhat I have found, what should I do?
Take it to the police or make it into stew
This was an evil committed by the insane
Looking down laughing, I am the sameThe sight of death drives me nuts
I must kill to control my brain
Swept away by my lust to cause pain
Mutilation is my only wantThe evil inside me gives me
The strength to kill at will
My life is the means to cause death
In the most sinister wayI see it in your eyes the fear that keeps me alive
I'll take it away, your life will end today
I'll leave you to rot, what a sick odor
Scream all you want but you can't stop this horrorTasting your life as I drink your blood
Ripping out your insides, chewing on your spleen
Dead or living flesh is what I crave
I'll kill someone or eat from a grave
