

That Body

Ian Isiah feat. Mykki Blanco

Oh, Jeremih, yeah, yeah, yeah

Oh, Jeremih, yeah, yeah, yeah

Bring it

Her hips wave in the ocean in ways you wouldn't believe

She swear that she got that potion, well I hope there's plenty for me

'Cause I been searchin' for somebody to cater, cater to all my needs

And you look like your willin' to do the favor

So come with me and let me work that body

Body, body, body, ah ooh

You know just how I like it naughty

Naughty, naughty, naughty, do you?

Yeah, we got plenty of Bacardi

Bacardi, Bacardi, Bacardi and juice and fruit for you

A private after party

Party, party, party for two, for two

You can get my body, my body all over your body, baby

Your body all over my body, girl

You can get my body, my body all over your body, baby

Your body all over my body, girl

I'm feelin' like I should tip ya the way you're grindin' the pole

You're hot and fresh out the kitchen, here's a taste of that pot of gold

You make me feel like I'm up on a vacation

Cooler than summer breezes

Girl, get your groove back better than in Jamaica

Hope you don't mind if I'm behind that body

Body, body, body, ah ooh

You know just how I like it naughty

Naughty, naughty, naughty, do you?

Yeah, we got plenty of Bacardi

Bacardi, Bacardi, Bacardi and juice and fruit for you

A private after party

Party, party, party for two, for two

You can get my body, my body all over your body, baby

Your body all over my body, girl

You can get my body, my body all over your body

Your body all over my body

I love it when you roll

And still manage to clasp that, clasp that ass, clasp that

Just keep the candles on

And maybe I could wax that, wax that ass, wax that
Body, body, body, body, ah ooh, ah ooh
You know just how I like it naughty
Naughty, naughty, naughty, do you?
Yeah, we got plenty of Bacardi
Bacardi, Bacardi, Bacardi and juice and fruit for you
A private after party
Party, party, party for two, for two
You can get my body, my body all over your body, baby
Your body all over my body, girl
You can get my body, my body all over your body
Get that body all over my body, girl
