

Get Comfortable

Junior Varsity

Locals read me
Like I'm not supposed to be where I should be
But I creep
To the backbone of my being Raise your flags but keep your distance
Steal and skin go get your reasons
Raise your flags but keep your distance
Steal and skin I feel right at home in my town, happy day
And step out into the freezing morning air Feels good to know that everyone here
Feels good to know that everyone waves by habit
But it makes my day by habit
But it makes my day by I thought I'd be right where I wanted to be
So what now?
I crashed the course
Could I get back on it? Steal to live and that's my reason
Steal to live I feel right at home in my town, happy day
And step out into the scorching day by day Feels good to know that everyone here
Feels good to know that everyone waves by habit
But it makes my day by habit
But it makes my day by Now I went down and stare
Watch my walls
Find the friendly faces
Anyone I know
[Incomprehensible] I feel out of place in my old town
Just a day, another day Feels strange to know that everyone here
Feels strange to know that everyone waves by habit
Just another day by habit
Just another day by Feels strange to know that everyone here
Feels strange to know that everyone waves by habit
Just another day by habit
Just another day by
