Liana

The Joy Formidable

This isn't a path that takes you somewhere
This isn't a plan that ends in something
Before it appears, you'll be left wide open
Alone with your crazy selfI see danger's love
See danger's cut
It slices eyes afraid to believe in me
I hear silent doubt staring through it all
It keeps asking, askingLiana, liana won't change
Whatever it takes she'll wait for you
Don't answer, don't show me the rain
Wherever it breaks
I'll be there too.That thing unknown
It's a new empty
A constant tone, a constant heavy
Be brave like everyone expects you to be.
I see danger's love
Feel danger's cut
It slices eyes afraid to believe in me
Oh please don't doubt, we'll get through it all
And be wonderful, wonderfulLiana, liana won't change
Whatever it takes she'll wait for you
Don't answer, don't show me the rain
Wherever it breaks
I'll be there too.We'll meet in that spot on the curve, on the curve right there.
We'll meet in our place, on the curve, on the curve up there
on the curve, on the curve UP there.Liana, liana
don't answer
just tangle around me.
