Drowning

Adema

I gave in to
The stress in life
I can't escape
The pressure seems to get me down
It's like a needle in my spine
It stings inside
Poisons me with time
I can't deal with your lies
I wish I could watch you drown and die
And take my time
Life has always been a problem, can't you see?
I don't fit in
People have said
I'm not okay
I lost my mind
Numb me 'til I won't feel pain again
It's like a needle in my spine
It stings inside
Poisons me with time
I won't deal with your lies
I wish I could watch you drown and die
And take my time
Life has always been a problem, can't you see?
I don't fit in
Life is gone
I am no one
Life is gone
I am no one
Life is gone
I am the one
Life is gone
I am the one
Life is gone
I am alone
Somethings going on in my mind
Let it all go and in time you will find
Nothing is real and it dies in the lies
Suffocate feelings you hide with lies
I wish I could watch you drown and die

And take my time
Life has always been a problem, can't you see?
I don't fit in
I wish I could watch you drown and die
And take my time
Life has always been a problem, can't you see?
I don't fit in
