

# Overdose

## Jamie Foxx

They say, I had it bad, addicted to what we had  
Heartbreaks now fading fast, vital's low, might not last  
Strapped down while sirens ring, holding on trying to breathe  
Not like this, I can't leave, look what you've done to meI overdosed, overdosed, overdosed, on you  
They said, I've overdosed, overdosed, overdosed on you  
'Cause I want you close, need you the most  
Without you I'm just through  
So I've overdosed, overdosed, overdosed on youRushing me, switching lanes, I.V.'s on through my veins  
Blood tests say no cocaine, they don't know you're the blame  
'Cause you're deep inside of me, so this is goodbye to me  
But for you I'll die happily, one more hit, I'll be freeI overdosed, overdosed, overdosed, on you  
They said, I've overdosed, overdosed, overdosed on you  
'Cause I want you close, need you the most  
Without you I'm just through  
So I've overdosed, overdosed, I overdosed on you'Cause I know that you would kill me  
'Cause I'm sweatin', tweakin', faintin'  
Never been so hurt  
But damn, I love this feeling  
'Cause I'm achin', breakin', shakin'  
Will I make it through the nightAnd now my body's cold  
I'm losing it, 'cause I was abusing it, oh no  
Can't nobody help, I did it to myself  
And that's why I'll do it again and againI overdosed, overdosed, overdosed on you  
They said, I overdosed, overdosed, overdosed on you  
'Cause I want you close, need you the most  
Without you I'm just through  
'Cause I overdosed, overdosed, overdosed on you
