

Liar's Tale

Guided By Voices

Let me tell you a story
Conclusive, based on fact
Long ago in the morning
She left did not come back
I don't really care anymore
I don't really care anymore
Change the days into nights
And you will know when the feeling is right
This tale is too long
The plot is weak and the characters wrong
I don't really care anymore
I don't really care anymore
But she changed my life
I thought she loved me
And I will pray for you
You'll see the truth
Cause that's how it's got to be
Oh oh oh yeah ooh
Let me tell you a story
About the way she was
Let me tell you a story
About the way she was
