

Moving

Kate Bush

Moving stranger
Does it really matter
As long as you're not afraid to feel?
Touch me, hold me
How my open arms ache
Try to fall for me How I'm moved
How you move me
With your beauty's potency
You give me life
Please don't let me go
You crush the lily in my soul, soul, soul Moving liquid
Yes, you are just as water
You flow around all that comes in your way
Don't think it over
It always takes you over
And sets your spirit dancing How I'm moved
How you move me
With your beauty's potency
You give me life
Please don't let me go You give me life
Please don't let me go
You give me life
Please don't let me go
You crush the lily in my soul, soul, soul
