Unhearted

Automatic Loveletter

Photograph each day so we can live forever Sit in the light to make the dark a little darker And I dance to move only you and I fight to kiss and make up. I scream for some silence. I laugh to laugh for once,
not there so you notice I'm gone and I breathe cuz its necessary and I sigh when I see the moon. I dream to make sleep less boring.. until there was you and I feel in the absence of heart and I plug my eyes to cry. I'm a hopeless romantic and kicking the habit but all hearts have darts.
Chorus: Sweet red cherry blossom tree that lives in both you and me. You marked your name but I can see, its not on me. So I've shamelessly gone and made myself come undone.
Heavy hangs my head when I'm Unhearted.2nd V
I wear this angels crown to cover up my devils frown and upon my broken chest lay a struggle between loneliness and things that are out of place like my head in outer space and the carpet you walked on the ceiling that cries please don't walk away "chorus"Bridge:
Bellow it out with all the breath in my lungs. Apologize for all that I've done. You did a number on me and a fantastic job. In the scheme of all things we never felt. When your hearts been breached and your guards been let down; You've rotten and spoiled me into the ground and a good mess forgives all the rest we allow"chorus" x2 Sweet red cherry blossom tree that lives in both you and me
