Coming Around

Waxies Dargle

Coming Around

by the Waxies Dargle

I've seen them on the corner quay when loves last ship has sailed
Thereâ€™s an old car park full of broken hearts whose last attempt has failed
reasons you have plenty, just to let it be
but if you're coming around with your hair all down
you know its alright by me

Birds are wheeling overhead getting ready for their flight
you remember how we wished upon the first stars of the night?
Then you blew your kisses to the moon for everyone to see
but if you're coming around with your hair all down
you know its alright by me

Down by the broad Atlantic we watched the swelling tide
and we saw the sunlight fading on the grassy mountainside
and all our hopes and all our dreams were drifting out to sea
but if you're coming around with your hair all down
you know its alright by me

I've seen them on the corner quay when loves last ship has sailed
Thereâ€™s an old car park full of broken hearts whose last attempt has failed
reasons you have plenty, just to let it be
but if you're coming around with your hair all down
you know its alright by me
but if you're coming around with your hair all down
you know its alright by me
