

Safe and Sound (feat. Evince)

Big L.C.T.

(Chorus) Evince

I don't want no pictures, I don't want no phones
I don't want no people, I just want to be alone
Tell me we're at your home, safe and sound nobody knows
All this drama comes and goes, I'll hold you tight but there's no ghost
Don't go, don't go, don't go(Verse 1) Big L.C.T.
Well the past just turned to present
All my thoughts have been reflecting
All my words and my intentions
And somewhere your name was mentioned
And somewhere there was redemption
I definitely second guessed
Because you were so deceptive
But now I want to be friends again
Could we take it back, forget the past
Leave earth in my aircraft
I could fly the world with my favorite girl
I could buy you diamonds and buy you pearls
I could put aside this rap
Take Big away from my name
I would do it all for you, forget all this fame
Just forget all this fame and take it back to basics
Take it slow, because I know, all this stuff all takes patience
I'm willing to wait here for you, so just do what you do
I'm just making my move by the way you look cute
Tonight
Only time can tell, if this is right
Only time we take is what we take tonight
Let's take tonight
Let's take the night
Before you speak, before you move
Before you talk, before you choose
Just know, I love you(Chorus) Evince
I don't want no pictures, I don't want no phones
I don't want no people, I just want to be alone
Tell me we're at your home, safe and sound nobody knows
All this drama comes and goes, I'll hold you tight but there's no ghost
Don't go, don't go, don't go(Verse 2) Big L.C.T.
Love is so tough that you searching and looking

You sending him photos you probably shouldn't
Don't leave me all alone, don't tell me that you took him
You killed my conscience I'm paying homage
5 years in depression I'll be out in August
That's just how I feel, girl I'm just being honest
Could we take it back, forget the past
Leave earth in my aircraft
We could drive around your town
Learn what you're all about
Stop by your house cause I'm just here to hangout
Girl I'm just here to breakout
Girl I'm just here to make out
Seclusion ain't a nuisance I just came and introduced it
You be chilling with the truest
I'm just calling it like you is
Yeah my heart is scarred with bruises
But I ain't stopping here (no, no)
I ain't stopping there (no, no)
I'm just going places to get to my destination
I'm running across the nation I'm starting to loose my patience
Please tell me that you're not playing please tell me that you're still waiting
I promise that I keep praying and praying, and praying(Chorus) Evince
I don't want no pictures, I don't want no phones
I don't want no people, I just want to be alone
Tell me we're at your home, safe and sound nobody knows
All this drama comes and goes, I'll hold you tight but there's no ghost
Don't go, don't go, don't go, don't go(Chorus) Evince
Safe and sound nobody knows
Safe and sound nobody knows
I don't want no pictures, I don't want no phones
I don't want no people, I just want to be alone
Tell me we're at your home, safe and sound nobody knows
All this drama comes and goes, I'll hold you tight but there's no ghost
Don't go
