

Kinda Busy

Suave

Walking down the street while people have a seat
I'm turnin' out the sadness into a madness
I don't wanna live for something to give
Cause there's another moment to take some movement I can sell you down the river
It just gonna give a nod to some other fever
Can't hold a candle to illusion
Nobody stop tryin' to turn off the light Little bit of music ooo
Make you chillin' right now, kinda busy right now
Take another vision ooo
I believe it right now, move it move it by now
