

Last Mile Home

Kings of Leon

Take it back, I never meant it
Never thought it would come to pass
Baby know it's not forgotten baby
Know that this is gonna last By and large I had it coming
I recall the tremble in your eyes
I just want to make it better
I just want to make it right Driven on the last mile home, driven on the last mile home
Things are always better, when were all together
I'm driving on the last mile home Tell me that the bar is drinking,
And the lights are swinging in the smoke
I'm a fool for conversation,
And I've got nowhere to go Dreamin' on the last mile home, dreamin' on the mile last home
Things are always better, when were all together
I'm dreamin' on the last mile home Dreamin' on the last mile home, dreamin' on the last mile home
Things are always better when were all together
I'm dreamin' on the last mile home Driven on the last mile home
Dreaming on the last mile home
Things are always better, when were all together
I'm dreamin' on the last mile home Dreamin' on the last mile home, dreamin' on the mile last home
Things are always better, when were all together
I'm dreamin' on the last mile home Baby I'm the one who's broken
Maybe I'm the breaker of the hearts
Been so lone since we've spoken
It's been lonely baby its been hard
