

# Figure It Out

## Everyday Sunday

I'm happy you came to me first  
Before the bubble burst  
I'm happy you answered my calls  
I'm bouncing off the walls  
Impossible to be tamed  
Her need- celophane  
I'm happy you like to play games  
Why did you run away?

We could spend some time together  
What he had he'll never know  
Your boyfriend gives you no respect  
And i can see your getting it  
So lets figure it out let's go.

I'm happy you're so impulsive  
Means that your passionate  
Im happy you're moving so fast  
But will it ever last  
I know you wanna break free  
From this monotony  
I'm happy you're coming with me  
But by choice its gotta be

We can spend some time together  
What he has he'll never know  
Your boyfriend gives you no respect  
And i can see your getting it  
  
So figure it out lets go

I'm happy you're changing your speed  
Slow down and lay with me  
On bottom but always discrete  
Kneel down and kiss her feet  
I'm happy your going too far  
Full strength before we start  
Sometimes you make it so hard  
Scream loud as we come apart

We can spend some time together  
What he had he'll never know  
Your boyfriend gives you no respect  
And i can see your getting it  
So figure it out lets go

We can spend some time together  
What he has he'll never know  
Your boyfriend gives you no respect  
And i can see your getting it  
So figure it out lets go  
Figure it out lets go  
Figure it out lets go  
Figure it out lets  
Go
