# What Did I Do

## Almost Awake

When you're not there I sleep the time away
All my black and white they fade to gray
And all of this is just to make you see
That nothing good ever happens to meYou can't pause something that you never played
There can't be debt for something you already paid oh noWhat did I do
Oh, what do I do
I lose control
Whenever I think of you
Give me a break
Cut me some slack
I gave it all to you
But now I want it backSad but just a little
Friend of a friend
You're my favorite distraction
I don't want you to end
And I know that I should
Let you in
But God your love is
Such a sinYou can't end something that you never started
You can't fix someone who was never broken-hearted oh noWhat did I do
Oh what do I do
I lose control
Whenever I think of you
Give me a break
Cut me some slack
I gave it all to you
Now I want it backYou're gonna use me
And I'm okay with that
