

# Wish You Were There

## Frenzal Rhomb

It's time you went away for good  
no apologies I think you really should  
always demonstrate your self righteous and  
boring outlook now if in doubt  
    wish you were there  
    it's probably not long before  
this feeling will subside won't choke me anymore  
    but until that day  
    your fucked up justifications  
    keep coming and coming  
    wish you were there  
    to contemplate just wastes my time  
about as interesting as this annoying vocal whine  
    it could be advantageous to shove you  
    on an icebreaker south now somehow
