

# Back to the Cave

**Lita Ford**

Oh, let's get back to the cave  
No one ever told us we had time to waste  
Oh, let's get back to the cave  
For a little while, oh, for a little while Life on the outside  
Life on the edge  
Pushin' all the buttons of love  
Drivin' in the wedge Somebody's takin' from you  
Time and time and time again  
Can't believe it's not the way  
You want it to be Oh, let's get back to the cave  
No one ever told us we had time to waste  
Oh, let's get back to the cave  
For a little while, oh yeah, for a little while Somebody lookin' for you  
Somewhere you've seen a face  
Somehow it leaves you feelin'  
Lost and out of place Too many wasted nights  
And way too many darker days  
There's nothin' left to make you burn  
And nothin' left to make you wanna stay, oh I'm lookin' deep inside you  
Down where you were before  
And when I find you  
I'll be wild and knockin' down your door I'll drag you screamin'  
From this endless and angry scene  
You can believe  
It's just the way you want it to be Oh, let's get back to the cave  
No one ever told us we had time to waste  
Oh, let's get back to the cave  
For a little while, oh yeah, for a little while, oh Oh yeah Oh, let's get back to the cave  
For a little while, oh yeah  
Oh, let's get back to the cave  
For a little while  
For a little while  
Oh yeah, for a little while
