You're a Disease

The Outcasts

Hey baby what ya gonna do
Baby baby think about yourself
think about yourself
you wanna crumble everybody else
you're such a bore
you stay true no more
Think I might throw up
across your face

You're a disease
You're a disease
your face a disease
I don't want to catch
Um baby baby could you see a light
Um all we see is a crock of shite
Um baby baby did you see the light
Baby baby baby got some metrolight
You're such a bore
you're true no more

You're a disease,
you're a disease
oh no not you
oh no not you
tell me it's not true

you're a disease,
you're a disease,
you're a disease
I don't want to catch
you're a disease
you're a disease
you're a disease
your face a disease
I don't want to catch
