

# Need Somebody

Alex Newell

Need somebody  
We all need somebody  
Body to body  
Need somebody  
We all need somebody  
Body to body

I've been workin' for that check  
So tonight I wanna cash out  
All this chaos in my head  
Sometimes I need to break out

So I'm gonna live with no regrets  
Ain't got no time to second guess  
Don't worry, don't worry  
Want in my mind, I let it go  
Do what I want, I take control  
I'm comin', I'm comin'

When time's gettin' heavy  
We all need somebody  
Body to body  
When life gets unsteady  
We all need somebody  
Body to body to love  
Need somebody  
Somebody to love  
We all need somebody  
Body to body

I've been putting in them hours  
So it's time to take the moment  
There's no room for any doubt  
So right now I'm gonna own it

So I'm gonna live with no regrets  
Ain't got no time to second guess  
Don't worry, don't worry  
Want in my mind, I let it go  
Do what I want, I take control

I'm comin', I'm comin'

When time's gettin' heavy

We all need somebody

Body to body

When life gets unsteady

We all need somebody

Body to body to love

Need somebody

Somebody to love

We all need somebody

Body to body

From the left side, to the right side

For every eye can see

From the dark side to the bright side

There ain't no stoppin' me

From the left side, to the right side

For every eye can see

From the dark side to the bright side

There ain't no stoppin' me

There ain't no stoppin' me

When time's gettin' heavy

We all need somebody

Body to body

When life gets unsteady

We all need somebody

Body to body to love

Need somebody

Body to body to love

Need somebody

Somebody to love

Need somebody

We all need somebody

Body to body

Need somebody

Body to body

Need somebody

Body to body

Need somebody

Somebody

Body to body

Need somebody

Somebody
