

# North Star

## Oysterband

North star  
We stare  
How far  
How clear  
Now touch  
Touch here  
Now warm  
Now near  
Now near

Within  
With you  
With love  
With love  
How sweet  
How filled

Now time  
Now time  
Now touch  
How sweet  
How near  
How filled

Now time  
Times still  
I'm still

Tonight  
North star  
We stare  
How far

How clear  
How far  
How clear  
How far  
How clear  
Now touch  
Touch here

Now warm  
Now near

Within you  
With you  
With love  
With love  
With love

I stand in the hallway  
She stands in the hall  
I stand at the doorway  
She stands at the door  
I lean in the window  
She leans on the wind  
I wait for beginnings  
She waits for the end

North star  
North star  
How far  
How clear  
Now touch  
Touch here

Now warm  
Now near  
Now near  
How far  
How clear  
Now touch  
Touch here

Now warm  
Now near  
Now near
