

# Missing You

## Trey Songz

I can't stop missin' you, wish I was there with you  
I can't stop missin' you, no, no, no, no  
I can't stop missin' you, wish I was there with you  
I can't stop missin' you, no, no, no, no I miss the way you kiss  
I miss the way wear them heels and make it switch  
Miss the way your hair blows in the wind  
And I miss you stayin' here till the mornin' Miss the way you put on your makeup  
Miss the way you love me too much  
It's everythin' about you, baby  
Wanna know where you been lately Do you go out, do you still live at your old house?  
Do you got somebody new in your life?  
'Cause I can't get you out of my mind And I wanna erase but I can't stop seein' your face  
In every girl I try to replace you with  
Why can't I get over it? Simply 'cause I can't I can't stop missin' you, wish I was there with you  
I can't stop missin' you, no, no, no, no  
I can't stop missin' you, wish I was still there with you  
I can't stop missin' you, no, no, no, no  
I can't stop Missin' everythin' you say  
Missin' all the crazy love we made  
Why'd you throw it all away?  
I want you to know It's been hell tryna do this without you here  
Baby, '07 supposed to be our year  
You confront my worst fears And I had my doubts every time you was goin' out  
'Cause I knew you were tell me lies  
And I can't get that outta my mind And I wanna erase but I can't stop seein' your face  
In every girl I try to replace you with  
Why can't I get over it? Simply 'cause I can't I can't stop missin' you, wish I was there with you  
I can't stop missin' you, no, no, no, no  
I can't stop missin' you, wish I was there with you  
I can't stop missin' you, no, no, no, no Wish I could wake up and forget about you  
Not tryin' to call you when I know I want to  
I gotta fight this feelin' can't let it take over me  
You just don't understand how much you were a part of me I can't stop missin' you, wish I was there with you  
I can't stop missin' you, no, no, no, no  
I can't stop missin' you, wish I was there  
with you  
I can't stop missin' you, no, no, no, no I can't stop missin' you, wish I was still with you  
I can't stop missin' you, no, no, no, no, no, no  
I can't stop missin' you, wish I was still with you

I can't stop missin' you, no, no, no, no I can't stop missin' you  
I can't stop missin' you  
I don't wanna stop, I can't stop missin' you  
Baby, I can't stop missin' you  
No, no, no, no, I can't stop missin' you
